Mr. Perry Raanan, Project Manager
Park Townsend Condominiums
G&K-Trident General Contractors
275 North First Street
San Jose, CA 95113-1014

Dear Perry:

I would like to express our sincere appreciation to you for hosting our field trip to your El Park Townsend project last week. While the student turnout was disappointing, I was more than glad that those who came got to see such an interesting project at this stage of construction. Both the design and the building process seem first class. The combination of structural systems, the waterproofing, and the unit designs were excellent examples of today's construction and in some ways a look at the future in multiunit housing.

It was also a pleasure to meet you. You were very good with the students. We appreciate your time and interest in showing us your project. I wish you the best for a successful completion and will look forward to seeing you again in the future.

Sincerely,

Boyd C. Paulson, Jr.
Professor of Civil and Environmental Engineering
Director, Graduate Program in Construction Engineering and Management
